Projects

AIRBNB DATA VISUALIZATION IN TABLEAU – Personal Project

April 2023

- Created a dashboard with **Tableau** with a use case to start an Airbnb business and to show the best place to buy.
- Transformed and processed Airbnb's data by using **Excel** to do formatting.
- Joined the two sheets by Inner join with a common column in both.

COVID-19 DATA EXPLORATION AND VISUALIZATION – Personal Project

May 2023

- Utilized **SQL** to extract data from 2 different related tables from global Covid-19 databases by using **JOIN**.
- Transformed and filtered data by using aggregating and filtering function.
- Loaded and visualized the data in **Tableau** with a full dashboard and forecasting.

BIKE SALES ANALYSIS – Personal Project

January 2023

- Cleaned the dataset in **Excel** by removing duplicates and using **IF** statement.
- Created **Pivot Table** to help build charts and a dashboard with filters.

Work Experience

TRAINING AS DATABASE ADMINISTRATOR – Hinti Academy
